

AMEREN ILLINOIS ENERGY EFFICIENCY PROGRAM

2023 Home Efficiency Initiative Incentive Quick Guide

MEASURE	INCENTIVE
Attic Insulation - R19	\$1.10
Wall Insulation	\$1.10
Rim Joist	\$2.00
Crawl Space Wall	\$3.00
Air Sealing	\$0.70
High-Efficient ASHRAE Ventilation	\$25.00

- Incentives for energy efficiency improvements are available to any Ameren Illinois heating fuel customer, regardless of income, and there is no customer application necessary.
- On-Bill Financing (OBF) is available to this tier of customers.
- Program Allies and customers may choose to implement each measure independently of other measures available such that they meet the customer's expectations in improving the energy efficiency of their home. This à la carte approach allows customers the choice to maximize their energy efficiency improvement while minimizing their out-of-pocket cost.
- For 2023, the existing condition eligibility has been adjusted so R-19 meets the maximum existing attic insulation to qualify for Attic Insulation Incentives.
- Direct Install Measures are not available in 2023. Customers can be directed to the Ameren Illinois Energy Efficiency Program Online Marketplace at AmerenIllinoisSavings.com/Marketplace.
